American Bimeriallie Leegue.

[By telegraph to the Dispatch.]

Washington, December 14.—A meeting of the Executive Committee of the American Bimetallie Leegue was held to-day. The committee consists of the following gentlemen; F. G. Newlands, of Nevada; James B. Grant, of Colorado; Senator John W. Daniel, of Virginia; Representative Willis Sweet, of Idaho; Senator Alfred Colquits, of Georgis; L. M. Rumsey, of Missouri; Richard Lacey, of New York, and W. J. Chayney, of Fennaylvania.

Richard Lacey, of New York, and W. J. Cheyney, of Fennsylvania.

It was stated after the meeting had adjourned that the committee passed resolutions declaring that they will determinedly resist the repeal of the act of July 18, 1840, requiring the purchase of 54,000,000 conces of silver a year, unless the free coinage of silver is at the same time substituted for the present law.

They declared that a repeal of the act of 1890 without the substitution of free coinage would lead to a ruinous fall in silver, attended meessarily by an equality-ruinous decline in wheat and cotton, which compose our most important products, and would be disastrous to business generally, and especially to our agricultural interests.

(By telegraph to the Dispatch.) BALTIMORE, Mr., December 14.—There has just been issued by the publishing house of John Just been issued by the publishing house of some Murphy & Co., of this city, for private circulation among the Bishops or the Catholic Church in the United States, an authentic abstract of the minutes of the third annual conference of the Most Reverend Archbishops of the United States. This authorized abstract is signed "P. L. Cha-

These approved minutes will probably be accepted by Catholics everywhere as conclusive on the disputed question as to what took place in the conference of Archbishops, as to Monsignor Satolli's mission, and the views the Papel legate laid before that conference on the paties shool question. The following are the parties of the abstract bearing on this matter:

"his Eminence Cardinal Gibbons opened the conference with prayer. Archbishop Presand tendered his resignation as secretary of the board and Hishop Chapelle was chosen in his stad. Then the Cardinal introduced the Apostolic delegate, the Most Reverend Archbishop Satolii. 'Speaker Crisp has come to town with a speech

opportunity to deliver it; and the Tribune of

said: 'Crisp has got a speech ready to deliver at
the ketorm-Club dinner to-night, and has given
it out to the press, but he won' got a chance to
fire it off. He will find that this is
not his show. Both of these statements are false, wholly. I never knew
that he was invited to speak or had a speech
prepared, or that he was invited to the banquet,
or that he was in the tity until 1 sat down at the
table and saw his name on the programme and
the seat he was to eveny. He soon appeared on
the stand. I advanced and shook hands with
him and aided him in finding the seat et apart
for him. I learned for the first time in the papers sunday morning that he was indignant at
his treatment. I said then and say now that I

MR. CRISP'S POSITION.

Little Doubt That the Speaker Has a Letter from Mr. Anderson.

(By telegraph to the Dispatch.) Washington, December 14.—Speaker Crisp was seen this morning, but still declines to say anything about the Reform-Club dinner. Little anything about the Reform-Club dinner. Little doubt is entertained that he has received a letter of some sort from Mr. E. Eliery Anderson in reference to Mr. Anderson's failure to call on him for a speech, but Mr. Crisp himself will not say whether or not he has received any communication from Mr. Anderson, and refuses to discuss the incident, taking the ground that the subject is a delicate one, and that is will be improper for one of the partise concerned to make comment on it. It may be, however, that in view of the general publication given the embarrassing affait Mr. Crisp will decide to make public the text of any explanation he has received from Mr. Anderson or say other person connected with the dinner, and, in the words of diplomacy, "regard the incident as closed."

MANY LIVES LOST. A Fearful Explosion of Coal-Gas in an English Colliery.

[By Anglo-American cable to the Dispatch.] LONDON, December 14 .- A fearful explosion urred to-day at the Bamfurlong colliery, Wigan, and not less than fifty lives have been Wigan, and not less than fifty lives have been lost. The men went to their work as usual this morning, and after the colliery had been in spected in the usual way. They had not been at work long when a terrible explosion shook the earth for a great distance and a cloud of smoke shot up through the shaft into the air.

A multitude of people rushed toward the mine and the greatest excitement prevailed. It was soon ascertained that a large number had perished, and the walling and weaping of women and children made an indescribable scene. Steps were immediately taken to ascertain the full extent of the disaster, and a crowd of volun-

and children made an indescrinable scene. Steps were immediately taken to ascertain the full extent of the disaster, and a crowd of volunteers promptly offered to explore the pit. It is believed that the explosion was caused by accumulated coal-gas, which had escaped the notice of the official charged with the inspection of the mine.

Later advices from Wigan state that the loss of life by the explosion at the Banfurlong collery may be less sorious than at first reported. The situation, however, is most critical. A hundred men remained in the mine with their lives endangered by being unable to get out owing to the fire which followed the explosion and which is razing fercely in the mine, making it difficult for the rescuers to get at the imprisoned miners. Notwithstanding the fire and other obstacles the work of rescue is proceeding, and volunteers are not descred by danger or difficulty in their efforts to save their fellow-miners from a terrible death. Hundreds or women and children surround the mouth of the mine waiting auxiously for news of fathers, the sands, brothers, and sons. Some of the women miners from a terrible death. Hundreds or women and children surround the mouth of the mine waiting auxiously for news of fathers, husbands, brothers, and sons. Some of the women volunteered to assist in the work of rescue, but their assistance was not required. No effort is being spared to put out the fire and aring the mea to the surface, and until this is accomplished the loss of life will be difficult to estimate.
